

Careers in Music, Worship, and Technology

Bachelor's Degree

Here are some examples of careers that may require or prefer a bachelor's degree in a music or worship related field. In the Music, Worship, and Technology field, there is variance in educational requirements. However, having more formal education will make you a stronger candidate for employment. In addition to a degree, employers also want to see work experience and specific competencies in the industry.

The Music, Worship, and Technology program has three different tracks that will help tailor your academic coursework to your career interests. These tracks are music, worship, and technology.

- Music Lesson Instructor
- Worship Pastor/Worship Coordinator/Worship Director – Church Setting
- Sound Engineer
- Audio/Video Technician or Producer
- Film/Audio Editor
- Media/Technology Director – Church Setting
- Music Lesson Instructor
- Music Teacher (Non-profit/Agency Settings)

**Note: In order to teach music in a public K-12 educational setting, you must graduate from an Education program and receive your state teaching certification*
