

A Response to Safety Questions at Grace Christian University

Grace Christian University has and will continue to seek the best interest of our graduates and any student who attends our campus. Grace exists, per our mission, to graduate godly individuals prepared to serve Christ in Church and society.

Grace is annually recognized by niche.com as one of the safest campuses in the state of Michigan. (Presently it is listed first as Safest College Campus in Michigan). The University has strong protocols to screen any organization which requests to come onto campus and interact with our students. Grace is a community which always seeks to honor the Lord, and respect the authority of the Scripture for belief and conduct. Grace is guided by a thoroughly biblical Statement of Faith which is signed annually by all faculty, staff, and board members. Grace's Statement of Faith is publically available on its website.

Grace Christian University has a firm position in which it will not engage in social media criticism or self-defense due to the potential resulting damage to all parties involved. It is our desire to intentionally preserve the testimony of other believers and avoid potential hurt or appear disparaging to others. Grace Christian University has thousands of proud graduates around the world, and their testimony of the institution's focus on biblical fidelity and character formation into the likeness of Christ is clear and strong.
